**Photoshop Workshop Report**

***Dated:05/08/2017***

A workshop on Adobe Photoshop was conducted on 04/08/2017 and 05/08/2017 by *CSI DBIT*.

**Date:**04/08/2017 - 05/08/2017

**Venue:** CAD/CAM Lab

**Time:** (17:00 - 18:00 hrs) and (09:00 - 16:00 hrs)

On the first day of the workshop i.e on Friday, a strength of 28 students turned up followed by 14 on Saturday. The workshop focussed on imparting basic and intermediate skills in Photoshop by which digital art, posters and advanced editing of images can be done. The presenter of the workshop ensured that the concepts of using the required tools was done in a sequential and a smooth manner so as to benefit the mass people. Concepts such as Smart Objects, Cutting of shapes etc were taught to the students who attended the workshop. The technical team of *CSI DBIT* made sure along with the presenter that most of the doubts of the students were solved right on the spot and that the resources were used to their full potential.

Photographs regarding the same are listed below:

After the completion of the workshop, a project was given to the students to explore the software and develop some kind of a poster and then send it to the presenter wherein the top works made by the students would be rewarded by gift vouchers and goodies. The feedback was then taken from the students who attended the workshop and *CSI DBIT* and the presenter received positive feedback about the manner in which the workshop was conducted and the concepts explained. All in all the workshop on Adobe Photoshop was a success.
