Objectives:

- ❖ To provide knowledge of HTML, CSS, and JavaScript for building modern websites to the participants.
- ❖ To teach responsive design principles and hosting techniques.
- ❖ To enable participants to create, style, and add interactivity to web pages.
- ❖ To equip students with practical skills for real-world web development and deployment.

Outcomes:

Students are able to design and develop responsive and interactive web pages using HTML, CSS and Javascript.

Detailed Report:

The Web Design and Hosting Workshop, organized by CSI-DBIT, was conducted on 30th July 2025 from 11:15 AM to 01:15 PM at IT Lab 06, Don Bosco Institute of Technology (DBIT), Kurla. Speakers Mr. Narendra Dhukhande & Mr. Masud Shaikh delivered an engaging session covering HTML, CSS, and JavaScript. Students were given hands-on experience in creating web pages, styling them using CSS, and enhancing functionality with JavaScript.

Session Highlights

The hands-on exercises provided real-world experience in designing responsive web pages and adding interactivity, giving participants the practical skills needed for modern web development. Towards the end of the workshop, an exciting competition was organized based on the concepts taught during the session. Participants showcased their creativity and coding skills by designing their own web pages. Two winners were selected for their exceptional performance, and as a special reward, they received internship opportunities at DBIT, motivating others to continue practicing and learning beyond the workshop.

Winners: Mr. Keshav Prajapati (TE-IT) and Mr. Harshal Bhosle (TE-IT).
